Emerging Drugs of Abuse Objectives

Feedback from previous workshop participants

“I’ve never stated I wanted to have a workshop last longer until attending this workshop on Emerging Drugs of Abuse. Glenn made this both interesting and informative throughout.”

“This was a very relevant and timely course. The instructor was able to use his enthusiasm and humor to keep this course going well.”

WORKSHOP OBJECTIVES

WORKSHOP PARTICIPANTS WILL BE ABLE TO:

1. Differentiate the major elements the Federal Government uses when classifying drugs from schedule 1 through schedule 5.
2. Workshop participants will be able to identify three different energy drinks w/alcohol & their side effects.
3. Identify at least two differences (in terms of negative effects) that occur with the ingestion of synthetic cannabinoids.
4. Identify which class of drugs synthetic cannabinoids & bath salts (synthetic cathinones) are classified under in the current version of the Diagnostic and Statistical Manual of Mental Disorders. Workshop participants will be able to list at least three negative side effects of each drug listed in this lecture.
5. Differentiate differences that drugs of abuse such as Adderall, Oxycodone and Suboxone are classified under in the current version of the Diagnostic and Statistical Manual of Mental Disorders. Workshop participants will be able to list three negative side effects of each drug listed in this lecture.
6. List and describe two different best practice therapy approaches regarding counseling clients who are abusing these emerging substances of abuse.
7. Verbalize current legal issues both locally and nationally as they relate to using these emerging substances of abuse.
8. List and identify three street names and at least one route of administration of the research chemicals covered in this lecture.

Emerging Drugs and Current Trends

What are Emerging Drugs of Abuse?

Since the early 2000’s different research chemicals have been used by the drug using community. This workshop covers many of the major emerging drugs that are being abused by clients. These drugs include: synthetic cannabis, synthetic cathinones (Bath Salts), new strains of synthetic opioids, kratom, salvia, detramethorphan, and many more. Also discussed will be drugs of abuse that are currently trending with our client population.

This workshop will cover all these changes, and much more! From the history of legalization and our current scheduling system, to the current research on the risks/benefits of consuming these drugs will be discussed.

New Rule Adoption for NJ LPCs, LACs, LCSWs, LSWs, and LMFTs (1 Hour Opioid Education)

New Jersey recently passed a Rule Adoption that requires all LPCs, LACs, LCSWs, LSWs, and LMFTs to receive 1 hour of continuing education on opioid use disorders (treatment, assessment and diagnosing, the societal problem impact). This course meets that continuing education requirement! This course covers the history of prohibition, differentiation of opiates and opioids, medicated assisted treatments for opioid use disorders, and the dangers associated with use.

The goal of this interactive workshop will discuss the latest developments and information regarding synthetic cannabinoids, MDPV, Meprahedrone, Cratom, and other emerging drugs that have been showing up with clients recently. Workshop participants will be introduced to the physiology of these drugs and how they can possibly impact, mimic and exacerbate mental health disorders such as anxiety and depressive disorders. Epidemiologic trends in drug abuse in both youth and adults will be discussed as will the latest trends both on the national and local levels.

ABOUT THE PRESENTERS:  Glenn Duncan LPC, LCADC, CCS, ACS has been working in the behavioral healthcare field for twenty-six years. He has lectured nationally on many topics including clinical supervision. He is a Licensed Professional Counselor, a Licensed Clinical Alcohol/Drug Counselor, a Certified Clinical Supervisor, and an Approved Clinical Supervisor. Glenn is currently the owner of Advanced Counselor Training, LLC. For 15 years (2003-2018) Glenn served as the Executive Director at Hunterdon Drug Awareness Program, Inc. Responsibilities included the fiscal turnaround of Hunterdon Drug Awareness Program, from an organization heading for bankruptcy and being over $100k in debt to being the premier regional outpatient treatment facility staffed with the highest quality clinical, prevention and administrative staff. When Glenn retired from this organization on 08/31/18, the organization had $300k in operating reserve and was as clinically and fiscally stable as it ever had been since its inception in 1977. Glenn is a national expert on emerging drugs of abuse and emerging trends with existing drugs. He has consulted both locally in New Jersey and nationally with authorities on both the State and Federal levels. His presentations on emerging drugs of abuse have been used by officials in Illinois, Delaware, New Hampshire, and has been used by DEA officials for training purposes. Glenn presented on emerging drugs of abuse at the National Conference on Addiction Disorders in Orlando, Florida, the Governor’s Council on Alcohol and Drug Abuse in New Jersey, Rutgers University as well as privately with his own organization. Glenn’s NJ LPC License #: 37PC00095000.
