**Artificial Intelligence in Mental Health**

**Feedback from previous workshop participants**

*“The instructor made a very complex, dry subject easy to comprehend and enjoyable!”*

*“This entire workshop was beyond my expectations! I learned so much valuable information in this short period of time.”*

*“This workshop was packed full of information and resources that I will be putting into use immediately within my practice!”*

**WORKSHOP OBJECTIVES**

1. Workshop participants will be able to list 2 different historical events that led to the birth of AI.
2. Workshop participants will be able to identify 2 applications of AI in behavioral health professions.
3. Workshop participants will be able to two different cultural and structural biases using AI could create.
4. Workshop participants will be able to list at least 2 ethical and risk management issues when it comes to the utilization of AI in mental healthcare work.

**June 15, 2026 - Live, Interactive Webinar**

**This course is NBCC approved for 3 clock hours of continuing education.**

AI is increasingly being used in mental health work. No matter where you fall on the AI utilization spectrum, from actively using AI to actively avoiding it, it is important to have a good working knowledge of the many ways in which AI is being used in the behavioral health profession.

This workshop will focus on four areas concerning AI: 1) the history of AI and terminology one needs to know regarding AI in mental health, the practical uses (and best practices) of AI in mental health, cultural implications of AI, and ethical and risk management issues related to the utilization of AI.

An interactive, small group exercise will help bring together the concepts of applications of AI in mental health, and their cultural and ethical implications when using AI with patient care.

**Live, Interactive Webinar  
June 15, 2026**

**Artificial Intelligence in Mental Health**  
**June 15, 2026 - (3 Continuing Education Hours)**  
**9 a.m.—12:15 p.m. Live, Interactive Webinar using the Zoom Platform!**

**ABOUT THE PRESENTER:** Glenn Duncan LPC, LCADC, CCS, ACS has been working in the behavioral healthcare field for thirty four years. He has lectured nationally on many topics including clinical supervision. He is a Licensed Professional Counselor, a Licensed Clinical Alcohol/Drug Counselor, a Certified Clinical Supervisor, and an Approved Clinical Supervisor. For 15 years, Glenn served as the Executive Director of Hunterdon Drug Awareness Program, Inc. As Executive Director, Glenn continued to hold a clinical caseload and perform clinical services in addition to his other administrative duties. Glenn specializes in working with clients who have co-occurring substance use disorders, depressive disorders, and anxiety disorders. Glenn served as an expert panel member for a SAMHSA TIPS book on treating sub-acute anxiety in the substance using population. Glenn teaches nationally and is currently a trainer for the Change Companies (on both the ASAM 3 and The ASAM 4 Criteria). Glenn authored a chapter on the use of live supervision in a community treatment organization for the book entitled *“The Use of Technology in Clinical Supervision and Training: Mental Health Applications,”* (2016). Glenn’s NJ LPC License #: 37PC00095000. **Advanced Counselor Training, LLC has been approved by NBCC as an Approved Continuing Education Provider (ACEP #6532). Programs that do not qualify for NBCC credit are clearly identified. Advanced Counselor Training is solely responsible for all aspects of the program.**

**This will be a live, interactive webinar using the Zoom platform. We will have interaction utilizing real-time questions and answers, Zoom polling questions, and breakout room small group exercises. We will determine conference attendance through Zoom logs, ensuring participants were attending during the entire conference. Your fillable PDF workshop evaluation will be emailed to you prior to the conference. Please fill out this evaluation and email it back to us at the same email address that sent you the evaluation. PDF Certificates of completion will be emailed to workshop attendees within 48 hours upon the return of the workshop evaluation and verification of attendance via Zoom logs.**

**This interactive 3-hour workshop provides an in-depth look at artificial intelligence and its applications in mental health. We will be covering the history of, and definition of, artificial intelligence. We will look at the applications of AI in mental healthcare. We will look at cultural considerations of AI as well as ethical and risk management issues to consider when using AI**
