April 23, 2027 - Zoom Webinar

What are the ethical goals of this workshop?

Stimulating ethical sensitivity: This involves helping students increase their awareness of the complex and various ethical issues that may confront them as professionals.

Improving ethical reasoning: Improving students' ethical reasoning involves strengthening their ability to move beyond a sense of "moral intuition" and helping them acquire the critical thinking tools to be able to competently analyze and judge ethical problems.

Developing ethical responsiveness: Developing participants' responsiveness involves helping to make and justify ethical decisions about specific cases called ethical dilemmas. It also involves helping participants better understand "the responsibilities of professionals involved in making ethical decisions".

Coping with ethical ambiguity: Developing attitudes and skills for coping with ethical ambiguity involves "introducing participants to the true ambiguity that often surrounds ethical choices" including the fact that acting ethically can be painful, difficult, and frustrating.

Satisfies the Ethics requirements of both LCSWs and LPCs. This course has been approved for the 3 hour Legal Standards requirement for LCADCs/CADCs!

New Jersey requires that mental health licensures (LCSW and LPC) require 5 hours in ethics training every two year cycle, and this course meets that need and is approved by NBCC. **LCADCs/CADCs will need 3 hours of legal aspects training and this course has been approved by the ADC committee.**
