DSM-5-TR Substance-Related and Addictive Disorders

Feedback from previous workshop participants

"The instructor was very informative in addressing cultural issues around utilizing the DSM."

"The trainer had a lot of information about the DSM and great small group exercises to help hone our diagnosing."

"I really enjoyed the trainer's ability of making the presentation personable and comfortable for participation by the audience."

WORKSHOP OBJECTIVES

1. Workshop participants will be able to describe at least two historical events or developments that influenced the evolution of the Diagnostic and Statistical Manual of Mental Disorders (DSM).
2. Workshop participants will be able to identify at least three substantive changes in the diagnosis and classification of substance-related and addictive disorders in the DSM-5-TR compared with DSM-IV-TR.
3. Workshop participants will apply DSM-5-TR diagnostic criteria to clinical information to determine the presence and severity of a substance use disorder and differentiate it from alternative diagnostic explanations.
4. Workshop participants will be able to explain at least three DSM-5-TR diagnostic considerations relevant to assessing substance use disorders in patients who use cannabis for medicinal purposes, including the distinction between therapeutic use, tolerance, and substance use disorder criteria.

November 13, 2026 (3 Continuing Education Hours)

The *DSM-5-TR Substance-Related and Addictive Disorders* chapter is one of the most frequently used—and often challenging—sections of the DSM. As diagnostic criteria continue to evolve alongside advances in research, clinicians must be able to apply them consistently and accurately across a wide range of clinical presentations. This interactive workshop explores the historical evolution of the DSM, highlights key changes to the DSM-5-TR, and strengthens participants' confidence in applying substance use diagnoses. Through discussion of real-world clinical scenarios, including considerations for patients using medical marijuana, participants will gain practical strategies for making accurate, defensible diagnostic decisions while improving inter-rater reliability across providers.

Learning the DSM doesn't have to be dry! This fast-paced, engaging workshop combines case vignettes, group discussion, and hands-on diagnostic exercises to make mastering the DSM both practical and enjoyable. Whether you're new to the DSM-5-TR or looking to sharpen your diagnostic skills, you'll leave with greater confidence, a deeper understanding of the criteria, and tools you can immediately apply in clinical practice.

ABOUT THE PRESENTER: Glenn Duncan LPC, LCADC, CCS, ACS has been working in the behavioral healthcare field for thirty four years. He has lectured nationally on many topics including clinical supervision. He is a Licensed Professional Counselor, a Licensed Clinical Alcohol/Drug Counselor, a Certified Clinical Supervisor, and an Approved Clinical Supervisor. For 15 years, Glenn served as the Executive Director of Hunterdon Drug Awareness Program, Inc. As Executive Director, Glenn continued to hold a clinical caseload and perform clinical services in addition to his other administrative duties. Glenn specializes in working with clients who have co-occurring substance use disorders, depressive disorders, and anxiety disorders. Glenn served as an expert panel member for a SAMHSA TIPS book on treating sub-acute anxiety in the substance using population. Glenn teaches nationally and is currently a trainer for the Change Companies (the folks who publish the ASAM 3 Criteria Book). Glenn authored a chapter on the use of live supervision in a community treatment organization for the book entitled *"The Use of Technology in Clinical Supervision and Training: Mental Health Applications,"* (2016). Glenn's NJ LPC License #: 37PC00095000. **Advanced Counselor Training, LLC has been approved by NBCC as an Approved Continuing Education Provider (ACEP #6532). Programs that do not qualify for NBCC credit are clearly identified. Advanced Counselor Training is solely responsible for all aspects of the program.**

The Live Workshop Schedule:

8:30 am – Zoom meeting opens for participants

9:00 am - Workshop Begins / 10:30 am - 15 min break

12:15 pm - Workshop Ends

TARGET AUDIENCE	
Substance Use Counselors	Clinical Directors
Professional Counselors	Social Workers
DMHAS Licensed Facilities	Case Managers

This will be a live, interactive webinar using the Zoom platform. We will have interaction utilizing real-time questions and answers, Zoom polling questions, and breakout room small group exercises. We will determine conference attendance through Zoom logs, ensuring participants were attending during the entire conference. Your fillable PDF workshop evaluation will be emailed to you prior to the conference. Please fill out this evaluation and email it back to us at the same email address that sent you the evaluation. PDF Certificates of completion will be emailed to workshop attendees within 48 hours upon the return of the workshop evaluation and verification of attendance via Zoom logs.

This interactive workshop focuses on the major elements of using the Diagnostic and Statistical Manual for Mental Disorders, Fifth Edition, Text Revision (DSM-5-TR). Upon completion of this course, participants will have a greater understanding of the DSM-5-TR and how to use this tool for the objective, evidenced based diagnosing of a client in order to help the clinician in the assessment/placement decision making. Participants will be able to recognize the difference between use, abuse and dependence that existed in the DSM-IV-TR, and the ability to understand and consistently utilize the new diagnostic criteria of Substance-Related and Addictive Disorders (mild, moderate and severe). Small group exercises will enable participants to utilize critical thinking while helping them to gain inter-rater reliability in making a substance use diagnosis using the DSM-5-TR.
